

In-House Technician

Responsible for the “finishing touches” on homes, striving for excellence with every delivery. This position involves helping complete final details/punch-out items of the homes. The job includes, but not limited to, drywall repairs, cabinet adjustments, installing cabinet/door hardware, installing towel bars, paint touch ups, general clean up, etc.

Primary Duties and Responsibilities

- Walk homes and complete items on the punch list.
- Attend regular project meetings with team and managers.
- Manage deadlines and help deliver a quality product.
- Provide feedback, recommendation, and project updates.
- Keep vehicle stocked with necessary items to complete jobs.

Education, Skills and Qualifications

- High school diploma or equivalent required.
- Outstanding finishing skills in a variety of trades with strong attention to detail
- Ability to handle multiple projects simultaneously
- Must exercise initiative and achieve objectives with minimal supervision.
- Excellent execution skills, highly focused task completion, follow-up, communication (written and verbal) and time management skills.
- Ability to meet deadlines while maintaining a professional attitude; great team-player and ability to accept feedback.
- Positive outlook, desire to support and interact with others daily in an exciting, challenging, and ever-changing work environment; superior customer service skills: a “people person”.
- Valid driver’s license and auto insurance coverage with good driving record.

Physical Requirements

- Primarily field/active job-site work.
- Working in less-than-ideal environmental conditions.
- Driving company van to various jobsites.
- Ability to lift 50 pounds.

Type

- Regular Full-Time
